PUSHING THE WAR.

Boers Leaving New Castle for Other Towns in Natal.

NO AUTHENTIC NEWS.

Telegraph Wires and Railroad Tracks Town up by Boers—Kimberly Is Isolated and Probably Invested by the Boers.

London, Oct. 16.—The gradual cutting of outlying points at the scene of hostilities in South Africa from telegraphic communications reduces the accurate news obtainable to a minimum. Thus far, however, no reliable information has been received of any actual fighting outside of the affair at Kraaipan, and an occasional exchange of shots at various outposts. There is no lack of circumstantial stories regarding fighting at various points, but these are scarcely published before they are denied.

The only salient fact is that the Boers have advanced beyond New Castle and formed a laager near Dannhauser, about 12 miles north of Dundee, and that Kimberly is isolated and probably invested. Kimberly thus becomes the immediate center of interest. The last message from Kimberly prior to the cutting of the telegraph and railway by the Boers said: "All troops at Kimberly are well." As there 3000 troops there, there is little anxiety for the safety of the town, especially as the Boers' forces are said to be only about the same strength.

Many stories of brisk fighting at that point are in circulation, but, although, the forces are likely to have to come into contact, all alleged details must be regarded as premature and speculative, especially if the report be true that the Orange Free State troops are in complete possession of the railway from Kimberly to the Orange river, 70 miles away. The alleged virulence of the Boer attack upon Mafeking and Kimberly can readily be understood, when it is realized that Bechuanaland is to the Boers what Alsace Lorraine is to France. It is therefore probable that both towns will be forced to undergo a long and dreary investment before the British are in position to send a relieving column.

On the other side of the country the Boers are closing around British outposts, having already come into touch with them in exchange of shots. Therefore, more stirring news is expected.

Advises from Cape Town relate, that excitement is kept up there by ceaseless reports of battles, but that little uneasiness is visible in official circles where the opinion prevails that the Boers are not likely to attack Vlyburgin. Bechuanaland, owing to the fact that the population in the district is largely composed of Dutch. It is assumed that the refusal of the Boers to accept battle in Natal last week, when General Sir George Stewart advanced and endeavored to draw them through Van Keenans Pass, indicates their unwillingness to commence hostilities.

Narrow city streets adjoining Guild hall and the stock exchange was crowded. The immediate occasion was a meeting convened by the Lord Mayor of London, Sir John Voce Moore, to declare the confidence of the business men of the city proper was with the South African policy of the government. Hundreds of members of the stock and wool exchanges of the great banking and underwriting firms formed processions in front of their various offices and marched to Guild hall, singing national airs, waving flags and accumulating masses of troops on every turn. Guild hall was packed with people. Band in the orchestral gallery led off with patriotic airs, which was taken up by the audience amid the waving of union jacks. The lord mayor and the sheriffs were loudly cheered upon arrival, and the name of President Kruger provoked a storm of "poohs." A resolution extolling the premier, Lord Salisbury, and Secretary of State Chamberlain, proposed by the Lord Mayor, was enthusiastically adopted. Patriotic demonstrations took place at Birmingham.

The Atlantic Transport company, which gave the United States government a ship for hospital purposes during the war with Spain, has now done Great Britain a similar service. The admiralty gladly accepted the vessel which will be named the Maine.

NEW CASTLE REACHED.

The Boers Have Taken That Town Deserted by the British.

Durban, Oct. 16.—The Boers, who have occupied New Castle, consists of Transvaalers, Free Staters and 400 Hollanders.

General Jonbert is believed to be at Laings, Nek, which he is fortifying. Kimberly is besieged and the Boers are massing in force. No details, however, are obtainable.

The Boers have cut the railway at

Belmont and seized the Spyfontein railway station and constructed fortified earthworks.

There are strong defending forces at Modder bridge and the Orange river bridge.

The object of these energetic operation, is believed to be the capture of Cecil Rhodes. Kimberly is now isolated, both railway and telegraphic communication being cut.

The occupation of Newcastle by the Boers was prepared for and expected,

the place having been abandoned by British. The Boers are reported to be menacing Kimberly.

Very heavy rains and snows are reported, which hamper the Boer movements, and they are finding that they began too late to easily obtain the initial successes counted upon. They evidently find the advances Ladysmith difficult, either from the north or west, as General Sir Stewart White's reconnaissance seems to have sufficed to deter them for the present.

Destroying Railway Tracks.

Cape Town, Oct. 16.—The Orange Free State troops have cut telegraph wires and destroyed the railway track at Norvals Point, just across the Free State, on the southern border.

A dispatch from Dundee, Natal, says the Boer commandoes, estimated at 2000 men, with 15 field guns, have reached Dannhauser, northeast of Dundee, with the probable intention of surrounding Dundee and cutting off the garrison from communication with

CECIL RHODES.

Glencoe and Ladysmith. It is supposed this force is commanded by Commandant Viljoen, and comprises German gunners.

The rest of the Boer forces from New Castle, it is believed, is marching around Glencoe to sever connection with Ladysmith.

As refugees in Cape Town threaten to become troublesome and have hooted and mobbed a number of leading Dutchmen, there is some expectation that martial law will be proclaimed.

Greene Reaches Cape Town.

Cape Town, Oct. 16.—Conyngham Greene from Pretoria, and Consul Vans from Johannesburg, have arrived here. Mr. Greene was accorded a magnificent reception. A crowd of 3000 persons were gathered and sang "Rule Britannia" and "God Save the Queen."

Conyngham Greene received every civility on his journey from the Transvaal capital. Six of President Kruger's bodyguard accompanied Mr. Greene to the border of the Free State and he received the same courteous treatment in the Free State.

Marchand's Request Refused.

Paris, Oct. 16.—Major Marchand, who commanded the French expedition into the Soudan, it is stated, will wish to go and fight for the Boers as revenge for being obliged to withdraw from Fashoda, but the government refused him permission to join the Boer forces.

Water Supply Cut off.

London, Oct. 16.—In connection with the rumored attack upon Mafeking, disquieting reports comes from Pretoria to the effect that the Rustenberg and Marico commandoes have crossed the border and entered Rooigrond territory, between Lychtenburg and Mafeking, blowing up the bridge over the Malopo river, destroying a load of dynamite and the track.

As Mafeking depends upon Rooigrond for its water supply, the significance of this move is evident.

DANGEROUS COUNTERFEIT.

A \$10 Note Defies Detection Except upon Close Examination.

St. Louis, Oct. 16.—Subtreasurer Farrar of St. Louis, is in receipt of a letter from W. H. Moran, acting treasurer of the United States at Washington, warning him that counterfeit \$10 bills of the series of 1901 are in circulation.

The spurious notes purport to be silver certificates. They are printed on soft paper, probably made of two sheets of Japanese tissue. In order to produce the effect of the green and red silk fiber which is used in the genuine bills, green and red ink lines are drawn on the inside of the sheets of paper and can scarcely be distinguished from the fiber except by the aid of the microscope.

Owing to the poor quality of the ink used the face of the note has a grayish tinge not noticeable in the genuine bill. The seal is a trifle darker than it should be. The back of the note is almost perfect, and even an expert would find dif-

difficulty in detecting the counterfeit. Acting Treasurer Moran writes that the bill is one of the most dangerous counterfeits discovered in recent years.

Bardwell, Ky., Oct. 16.—The Bryan party left Cairo, Ills., at 7 o'clock this morning. Among those on the train were Mr. and Mrs. Bryan, National Committeeman Woodson of Kentucky, William Geobel, the Democratic candidate for governor; Captain Joseph Blackburn, brother of Senator Blackburn; G. G. Coulter, candidate for auditor, and other well known Kentucky Democrats and an array of newspaper correspondents. Bardwell, 20 miles out from Cairo, was the first stop, where an enthusiastic crowd greeted the train and Mr. Bryan spoke briefly.

ADDITIONS TO NAVY.

Five New Battleships Will Be Completed Very Soon.

ONE NEW CRUISER.

There Are Twenty-Five New Torpedo Boat Destroyers and Torpedo Boats Now in Course of Construction.

Washington, Oct. 16. — Five battleships, one cruiser, one cadet training ship, 25 torpedo boats and torpedo destroyers will comprise the new construction completed and added to the navy within the next year.

Rear Admiral Hichborn, chief constructor of the navy, makes this estimate in his annual report for the fiscal year ending July 1 last, which he has just submitted to the secretary of the navy.

Final work on the battleship Kearsarge will be completed, he states, in January next, the Kentucky will be ready a month later, the Alabama will be in condition for active service in January, the Wisconsin on May 1 next, the Illinois in October, the Maine will be ready for sea in June, 1901, the Missouri in February, 1902 and the Ohio by March, 1902.

The four monitors under construction will be turned over to the government in 1901, in which year all the torpedo boat destroyers and torpedo boats should be ready for delivery to the government.

In explanation of his estimates of \$6,000,000 for the construction and repair of vessels, an increase of \$3,000,000 over the appropriation for the present fiscal year, Admiral Hichborn states that it has been and will continue to be found necessary to expend comparatively large sums in connection with the repairs of the older vessels, in making the alterations necessary for the efficiency according to modern ideas and practice. For instance, the alterations and repairs to the Cincinnati and the Raleigh will require an expenditure of about \$500,000 under the bureau of construction and repairs.

Seventeen vessels, gunboats and tugs, were secured by purchase and attached to the Asiatic station.

Work upon the design of a gunboat to replace the Michigan on the great lakes has been suspended pending definition of the characteristics that will be permitted under the treaty with Great Britain.

Delay on vessels under construction has been occasioned, Admiral Hichborn asserts, by the impossibility of procuring armor and other material at the proper time, especially in the case of some torpedo craft.

Admiral Hichborn renews his recommendation, which will enable the department to make a single contract for ships and armor, urges the authorization of an assistant chief of the bureau of construction and repair, the removal of the limit of the number of officered corps, now restricted by law to 40 and an increase in the number of carpenters to 75. War experience has demonstrated Admiral Hichborn states, the strategical and tactical advantages of sheathed over unsheathed ships.

Sayers Will Look After Claims.

Austin, Oct. 14. — Upon the convening of the national congress in December, Governor Sayers will proceed to Washington for the purpose of giving his personal attention to the payment of the claims of Texas merchants for supplies furnished the Texas troops while being mobilized for the late Spanish war. There are in the neighborhood of \$100,000 worth of these claims, and as they have hung fire so long, with no one to give them personal attention at Washington, Governor Sayers will go there for that purpose himself in December. He has ordered the adjutant general compile all the data necessary, so as to have it ready for his use.

Under the Slander Act.

Columbia, Mo., Oct. 16. — P. S. Hocker, justice of the peace for Centralia township, has filed suit for \$4500 damages against J. H. Murray, prosecuting attorney of Boone county. Judge Hocker charges Mr. Murray with slander. The case is the outcome of a suit for wife desertion, tried and dismissed in Hocker's court at Centralia. T. W. Asbury of Centralia, was charged with deserting his wife. Before the case reached the jury, Justice Hocker dismissed it. Prosecuting Attorney Murray then brought the case before J. C. Gillespie in Columbia. The jury gave Asbury the extreme penalty of the law. The suit is based on a speech which Murray made before the jury at the trial.

Hill Abandons the Fight.

Decatur, Ill., Oct. 16. — The Rev. J. W. Hill, who has given up his attempt to prove his innocence of charges made at Butler of improper conduct toward a young lady, said that he would not only leave the Methodist ministry, but would quit preaching. He will move to Decatur from Argenta and go into business.

He was the founder and publisher of the Oklahoma Odd Fellow and the Western Lodge Journal, the official organ of the Knights of Pythias of the two territories, and for the past four years was grand secretary of the Grand Lodge, Independent Order of Odd Fellows of Oklahoma.

Benefits of a Board of Trade.

The board of trade of our neighboring city Taylor, gives a practical example of the benefits to be derived from such an organization. From the following special to the Galveston News it is shown what has been accomplished there:

Taylor, Tex., Oct. 6. — Messrs. A. J. Thompson and Howard Bland to-day let the contract for the erection of a \$20,000 flouring mill to be completed by June 1, 1900.

Mr. Frank Brown of San Antonio, has purchased the site for a 10,000 pressed brick factory and work will be commenced immediately.

Both of the above enterprises were secured through the efforts of the Taylor board of trade, and there are others to follow.

This county is in the best shape for years and it is due more to the methods employed by our people to keep out of debt rather than to the present price of cotton. It is true that many old debts will be paid, which can be attributed to the good price of cotton, but the general prosperity must be credited to the economy of the farmer. Less credit has been used by our people than ever before, many of them going through on the truck patches and chicken crop.—Madisonville Meteor.

It is now conceded by all men of all parties, says the Henderson Times, that Bryan will be renominated for president. So much for undaunted courage and absolute loyalty to the great and undying principles of democracy. Those who once called Bryan by all sorts of hard and unseemly names stand aghast when contemplating his power, and are earnestly seeking the cause of his undying hold upon the affections of the millions of honest voters. In New York today he is more talked of than any other living man, and all men there regardless of their standing socially or financially, who are opposed to McKinley's policy of imperialism, are for him, first last and all the time. Booms that were attempted for their own townsman disappeared like the dream of a fairy, and Bryan's name stands out and dims the rest.

A. and M. Board Meeting.

The new board of directors met at the A. and M. College yesterday all the members being present.

Col. Marion Sansom of Alvarado was elected president of the board.

Col. Sansom and Capt. Reichardt were both nominated for president, but Capt. Reichardt withdrew his name, stating that having served as president two years and believing in the principle of rotation in office he wanted to be relieved, and desired that Mr. Sansom be elected. Mr. J. A. Baker, of College, was elected secretary of the board.

The following committees were appointed:

Finance — Reichardt, Kokernot, Paulus and Holland.

General Management—Johnson, Smyth and Tobin.

Prairie View—Reichardt, Paulus and Johnson.

All the members of the board were presented, namely, Marion Sansom of Alvarado, F. A. Reichardt of Houston, John W. Kokernot of San Antonio, D. A. Paulus of Hallettsville, Jefferson Johnson of Austin, F. P. Holland of Dallas, A. P. Smyth of Mart, McLennan county, and P. H. Tobin of Denison.

The board adjourned at noon and all the members left for their homes yesterday and last night.

The board represents widely different sections of the state and is composed of representative and successful men, who are in the full vigor of usefulness, and thoroughly awake to the interests committed to their care. They dispatched the business before them rapidly and were well pleased with the college and the work going on there.

ON A SERIOUS CHARGE.

An Ex-Policeman and a Woman Under Arrest at Washington.

Washington, Oct. 16.—Adelbert W. Cox, for several years prior to Oct. 1, a member of the Washington police force and Etta Williams a young woman with whom he lived, have been arrested by detectives charged with the larceny of \$100 from James A. Stewart, 55 years of age, and for a long time a clerk in the general land office. Back of this formal charge, according to the police, is a most remarkable story.

Stewart disappeared from his boardinghouse on Sept. 6, and for four weeks an unavailing search was made for him. He was finally found in the attic of the house where Cox and the Williams woman lived, in a state of collapse and almost demented from the effects of the drugs which he alleged had been administered to him by the pair under arrest. Stewart was taken to the hospital and though at first his life hung by a thread, he recovered in about 10 days.

He is a widower with a married daughter living in Annapolis, Md., and roomed alone in Washington. He left his rooming place on Sept. 6 to make a call and for weeks no trace of him could be found. Finally the police gained a clue by learning as the result of inquiry at all the local banks that he had \$375 on deposit with the Washington Loan and Trust company. All of this save \$10 they ascertained had been drawn out on checks payable to bearer, signed by Stewart and endorsed by Adelbert W. Cox. The first checks were clearly written, but the later ones were in a weak and almost illegible hand. Cox had explained at the bank's office by saying the old man was rapidly failing in health. With this clue the detectives found Stewart, in the garret of a house where Cox lived. He had had scarcely any food for a month. He said he had called Sept. 6 on Cox and the Williams woman, who formerly boarded where he did. They sent out for some liquor, and after that he remembered things only in a vague way. On his statement the police arrested Cox and his paramour on a charge of larceny, pending investigation and consideration of the making of a more serious charge. Both prisoners secured bail in \$1000 each.

Cox was compelled to resign from the police force a short time ago because of his relations with the Williams woman and a suit for divorce brought by his wife. He denies having had Stewart a prisoner. Cox says that Stewart went to Atlantic City in September with two women and about \$300 in cash, and when he returned he said he had been robbed and beaten at the seashore. At Stewart's request he was permitted to use a room in the house where he (Cox) lived, and was cared for by the Williams woman.

Nine Lives Lost.

New York, Oct. 16.—All that remains of the steamer Nutmeg State, which was burned to the water's edge Saturday morning at Sands Point, L. I., are the twisted and blackened arms of steel and iron surrounded by the huge copper bottom which lies in the surf. Somewhere in the debris are believed to be five bodies but it will be some days before these can be reached. They are supposed to be in the forward part of the bulk where the crews of men were imprisoned by fire. The bodies of the woman and little girl which were washed ashore, have not been identified. The body of an unknown man, picked up by a yacht and taken to Stamford, Conn., brings the death list up to nine.

Boys School Burned.

Chicago, Oct. 16.—St. Mary's training school for boys at Feehanville, was burned to the ground Sunday. The loss is estimated at \$200,000. Seven buildings were destroyed, Archbishop Feehan's summer home, being the only building saved. The fire originated in the chapel during services and was not discovered until it had gained considerable headway. Over 400 boys were in the chapel attending services, but all escaped. The school was founded by Archbishop Feehan.

Commander Mason Dead.

Washington, 16.—Word has been received here of the death at Sagerties, N. Y., of Lieutenant Commander T. B. M. Mason, United States navy, retired. Commander Mason was a native of New York, and was 51 years of age. He was instrumental in developing the office of naval intelligence, which proved of great value to the government during the Spanish-American war.

Emperor Honors Harrison.

Berlin, Oct. 16.—The press of the city refers to the recent reception to General Benjamin Harrison, who was especially honored by Emperor William, his majesty even disregarding the rules of the court etiquette by seating General Harrison at the table of honor reserved for members of the royal families.

Reported Outbreak at Manila Was Clev-
erly Put Down Troops.

Manila, Oct. 16.—The authorities were informed Saturday from reliable sources that an outbreak in the poorer districts had been carefully planned for daylight on Sunday. It failed to occur, probably on account of the vigorous measures enforced.

The guards of the city were doubled and a strong force stationed at the slaughterhouse, the center of an unruly section.

Two guns of the Sixth artillery were stationed nearby at a point commanding the native quarter.

Three native police have been arrested on a charge of plotting an uprising. The fact that their comrades informed the authorities of their treachery indicates that the police force is loyal.

MONEY FOR HEATHENS.

Sixty-Eight Thousand Dollars Raised at
an Excited Meeting at Carnegie Hall.

New York, Oct. 16.—Sixty-eight thousand dollars was raised in Carnegie hall Sunday night for the heathens. It was obtained by the Rev. A. B. Simpson and his associates in the Christian mission-ary alliance, amid the tumult of religious enthusiasm which prevails when the alliance takes up its annual collection.

Women tore off their jewels and men their coats and vests, throwing them to the collectors and shouting "Glory to God" and "Hallelujah," as they contributed to the fund by which the alliance will keep its missionaries abroad for the year. While the amount was not as large as had been raised on a previous occasion, there was no diminution in the religious enthusiasm at the bottom of the giving.
